Dear Les,

European Patent Application No. 82 301 286.9
Your Case: PM-1019 - Our File: 24799

I enclose the search report issued by the European Patent Office together with a copy of the cited publication.

This publication is cited as being particularly relevant, and I should welcome your comments. There is no immediate urgency, because the application cannot be published before 30th October 1982 and the examination request need not be filed until some date after 30th April 1983. If you believe amendment of claims is desirable, however, it would be convenient to file such amendments with the request for examination.

I look forward to receiving your comments in due course.

Yours sincerely,

J.H. BASS
